

Intelligent security tailored for you.sm

## **Video Surveillance Solutions for Businesses**

In today's dynamic business environment, your work may take you across state lines or across national borders. Video surveillance solutions from Vector Security® help you stay connected to your business, wherever you may be.

Our consultants can tailor a video strategy to support your business goals and objectives.

- **View live video or recorded clips** of stockrooms, POS terminals, confidential data areas, customer traffic and more from your computer or smartphone.
- Use your computer or smartphone to **remotely control your cameras.** Turn them on and off and adjust views.
- Enable motion-triggered settings and receive email or text message alerts when video is recorded. If anything is amiss, you'll know right away.
- Access archived clips on a secure site to prevent tampering or accidental deletion so you can refer back at any time.
- Use **video analytics** to get data on customer traffic, purchase habits, sales patterns and other information that can improve your business operations.

And, our video solutions work seamlessly with our portfolio of commercial security products and services.
