About Us

For more than 40 years, Vector Security® has protected people and property by providing intelligent security solutions tailored to the needs of the customer. Through a network of branches and authorized dealers, we design, install and monitor security systems for hundreds of thousands of homes, businesses and multi-site retail chains across North America and the Caribbean.

Our security solutions include:

- Burglar and fire alarms
- Video surveillance
- Mobile technologies
- Home technologies
- Environmental monitoring
- Access control systems
- Loss prevention strategies
- Security guards and patrol

Smart security that fits you... today and tomorrow.

When it comes to security, we don't believe in "one-size-fits-all" security systems. What's right for one customer may not be right for you. That's why we create a security solution to fit *your* needs whether it's for your home or business. And if those needs happen to change, we'll be there to make sure your security fits your situation every step of the way.

How do we do this? By asking the right questions. And listening. Then we find the right combination of products and services that suit your unique demands.

From consultation and design, to installation, monitoring and service, we integrate our products to provide convenient, quality security solutions for you.

HOME SECURITY THAT'S A *PERFECT FIT.*

Your home is your safe haven. It's unique, just like you and your family. So when it comes to protecting the things you value, you want smart, tailored solutions.

Our experts create the right security plan for your lifestyle and budget, whether you need standard home security or highly-personalized options, or whether you live alone or with kids and pets.

From protection against intruders to monitored fire alarms and around the clock personal emergency response, enjoy peace of mind in your home. And with our mobile technologies, manage it all conveniently from your computer or smartphone.

Protect your home with the solutions we offer:

- **Monitored burglar, fire and carbon monoxide alarms** that save you precious time in an emergency.
- **Video surveillance** that lets you check in on your home and family when you're away.
- **Mobile solutions** that allow you to manage your security system from your computer or smartphone.
- **Personal emergency response** so medical help can be summoned at the push of a button.
- **Energy management** to help you save on energy costs.
- **Environmental hazard monitoring** to warn you of potential water pipe bursts or flooding.

"When I began looking for a home security company, I found that most providers used a cookie cutter approach. But Vector Security gave me a number of ideas to provide different levels of protection. I was able to choose the right option for my needs, lifestyle and budget."

– **Brandon Davis**, Youngstown, OH

SECURITY SOLUTIONS FOR YOUR HOME

BUSINESS SECURITY THAT'S A PERFECT FIT.

You work hard to make your business succeed, so protect it against internal and external crime, fire and environmental hazards.

Whether you're running a cozy neighborhood bakery or a company with regional locations, our security experts assess your business goals to deploy best-fit, cost-effective solutions to protect what you've built.

And should your business grow, or need to address new threats or opportunities, our intelligent security means your business is always protected.

Put our security solutions to work for your business:

- **Monitored burglar, fire and carbon monoxide alarms** that save you precious time in an emergency.
- **Video surveillance** that lets you check in on your business when you're away.
- **Mobile solutions** that allow you to manage your security system from your computer or smartphone.
- **Energy management** to help you save on energy costs.
- **Access control systems** that give staff convenient access to their workplace while protecting your business from property and information theft.
- **Environmental hazard monitoring** to warn you of potential water pipe bursts or flooding.

"Guitar Center has been a Vector Security customer for over a decade. What first attracted us was their personal attention to detail. What's kept us there has been the unwavering commitment to detail and personal attention, even though we have both grown considerably. Even today, I feel that the Vector Security team is as close to us as my own staff. That's a rare and valuable trait in today's business environment."

– **John MacFadyen**, Vice President of Loss Prevention & Safety, Guitar Center

SECURITY SOLUTIONS FOR YOUR BUSINESS

MULTI-SITE SECURITY THAT'S A PERFECT FIT.

**SECURITY SOLUTIONS FOR
NATIONAL ACCOUNTS**

Some of the biggest names in North American retail trust Vector Security with their multi-site, enterprise-wide security needs. That's because through our unique service model, we become an integrated partner focused on delivering performance-driven solutions.

Our consultants get to know your business intimately and create solutions that support your strategies and objectives. With an eye towards the future – and to maximize your security investment – we custom tailor a security solution that grows with you, even if there are shifts in the marketplace.

We have a dedicated National Service Center that serves as a single point of dispatch for installation, project management, service and maintenance. This means we can react quickly to all your security needs.

Put our security solutions to work for your business:

- Electronic security services
- Electronic article surveillance (EAS)
- Robbery notification
- Automatic fire alarms
- Environmental hazard monitoring
- Video surveillance & analytics
- Access control systems
- Compliance & permit management
- Inspection & testing
- InSite alarm management tool

"Vector Security handles the greatest portion of our electronic security, fire alarm, access control, refrigeration monitoring and central station monitoring, which has helped us reach higher levels of performance. They are a true partner and keep us up to date with new technologies and ways to maximize our existing systems by pinpointing ways to improve our operating procedures."

– **Karl Beagle**, *Director of Loss Prevention, Weis Markets*

AWARD-WINNING MONITORING SERVICES

Once your security solution is installed, you'll benefit from 24/7 monitoring services by our award-winning Monitoring Centers. Our highly-trained staff reacts swiftly to any emergency situation, saving you precious time in an emergency.

- We own and operate our Monitoring Centers so we have total control and work directly for you.
- Uninterruptible power supplies ensure continuous monitoring of your security system.
- False alarm protocols let authorities know the need for a response is real so help can be on its way quickly.
- Experienced operators respond with speed and accuracy to your alarm, dispatching help within minutes.

Intelligent security *tailored for you.*SM
